		Grand Total	6,817,555,930

Tax Increment Financing (TIF) Districts

Tax Increment Financing (TIF) laws enable municipalities to form entities that collect property tax revenue based on valuation increases from new investments within a designated area (TIF district). Once a TIF district is established, property tax revenue attributed to new assessed value within the district accrues to the entity rather than the traditional taxing authorities. The figures to the right are the tax dollars for each authority that will be diverted to the TIF districts in Douglas County for 2016 taxes (payable in 2017).

Taxable Value Distribution

Tax Dollar Distribution

How Taxes are Determined

The Assessor is responsible for discovering, listing, classifying and valuing all real and business personal property in the County. All property is subject to taxation except that which is exempt by law.

Individual taxes are determined by mill levies (tax rates) set after annual public budget hearings held by school boards, county commissioners, city councils and special district directors. These taxing authorities determine what their budget needs are and then divide by the total assessed value of the district to arrive at a mill levy. For example, if the new budget is \$50,000 and the assessed value is \$5,000,000, the mill levy would be \$10 per thousand dollars of assessed value or 10 mills.

Individual property taxes are calculated by multiplying the assessed value by the total mill levy for that tax area. For example, if your property assessment is \$22,380 and your tax area has a levy of \$90 per thousand dollars of assessed value (90 mills), your tax bill would be \$2,014.20.

ASSESSED VALUE X MILL LEVY = TAXES

The 2016 taxes are levied January 1, 2017. Taxes may be paid to the Douglas County Treasurer in two equal payments: the first is due by the last working day in February and the second is due by June 15, 2017. If the tax is paid in full, it is due by April 30,

2016 Abstract of Assessment and Summary of Tax Levies
